## Harry S. Anderson Declares Secretary of State Will Carry Alameda Co.

To the curacy of a TRIBUNE reporter today Harry S. Anderson said. Am pleased with the outlook for Curry. Well I should say yes I made a trip through the lower part of Alameda county and am greatly surprised at the unanimity of feeling in favor of Charles I. Curry for Governor. When I left for the last I felt that we would do well if we broke over in Alameda county but I am now certain that this county will vote for Curry. I have made a special visit to more than 100 leading Republicans during the last three days in Oakland Livermore Pleasanton San Jose Irvington Mission San Jose Warm Springs Newark Altamonde Mount Eden Conventville S. J. Hayward San Jose. I am convinced that if the district counted their opinions 90 percent would still win the county by a landslide some majority.

### GAINING STRENGTH

This is all the more gratifying, when one stops to think that if that needed assistance comes to his attention he, if one goes to show that the Legion is as desirous as we are to help up a big majority in Alameda county.

Its membership is composed entirely of a thriftness organization. It has been a long while since I have heard anything of the indorsement of Charles I. # PAPOOSES SIGN FOR SALE OF \$30,000,000 LAND

Names of Baby Indians Placed on McMurray's Contracts, Testify Parents.

LOOKED ON AGENT AS SUPERIOR TO SOLONS

McHarg Testifies the Situation Was as Confused as Clever Men Could Make It.

McLESTER OAKS Aug. 11—It was brought out in the congressional investigation of the Gila Indians today that the baby Indians as well as the one had signed the McMurray contracts providing for a sale of \$30,000,000 worth of land on a 10 per cent interest for the basis.

The names of the little papooses were signed by the parents or guardian witnesses testified. It was developed that the baby Indians were placed on the contracts as well as the one had signed the McMurray contracts providing for a sale of \$30,000,000 worth of land on a 10 per cent interest for the basis.

REALIZE ON LAND

"We considered that McMurray knew better than our congressmen and senators how to go about selling the land. We believed that by signing the contracts we would realize quicker on our claims against the government. That's why I signed the children's names," testified Dr. J. H. Miller, a Choctaw by intermarriage, testified that he and his wife had signed the contracts.

The present great wealth of the Oklahoma Indians was brought out in testimony. A Choctaw and Chickasaw tribes of Indians are included for the individual shares of the land now held for them by the government. They are at present accounted among the richest people in the world.

It was said that the government had \$50,000,000 in land which they already had in hand.

Indian witnesses took the stand and testified that they had signed the contracts.

RENTS OUT LAND

One Indian testified that his family owned 100 acres of which 1000 acres were in cultivation with cotton, corn and wheat. The land was rented out to him and his family. He said that he had signed the contracts for the land.

RESIDES IN NEW YORK

What his plan was McHarg did not say. He declared his contract of special privilege provided for his residing in New York.

If the McMurray contracts were approved McHarg would have received at once as he would regard it as a completion of services. He said the Choctaw tribe already paid out \$10,000,000 for the land.

Dr. J. H. Miller, a Choctaw by intermarriage, testified that he and his wife had signed the contracts. He said that he had signed the contracts for the land.

# HUNDREDS HAVE ENDORSED THE CANDIDACY OF SUPERVISOR WILLIAM B. BRIDGE

## Men From Every Walk in Life, Business World, Professional Ranks, Farmers, Labor Unionists, Bankers and Others Pay Tribute to This Official's Fine Record and Good Work for the County

We, the undersigned voters residing in the Second Supervisorial District, comprising Eden Township, Brooklyn Township (the annexed district) and all that part of Alameda lying east of Paru street, desire to express our appreciation of the faithful and effective service rendered by W. B. Bridge during his tenure as a member of the Board of Supervisors.

Mr. Bridge is a candidate for re-election, and we believe the best interests of this district and of the county at large will be served by retaining him on the county board. His experience as a Supervisor, road foreman and school trustee exceptionally qualify him to fill a position he has filled during the last four years with diligence and fidelity to the public interests.

Prior to his election to the Board of Supervisors, Mr. Bridge served for six years as road foreman under the able supervision of Supervisor J. R. Talcott. While in this position he supervised construction costing in the aggregate \$1,000,000, to the entire satisfaction of the public and of Mr. Talcott.

Mr. Bridge served as school trustee of Fruitvale for six years, and has resided in this Supervisorial district for thirty-nine years, hence he is not only identified by residence and interest with the district, but is familiar with its needs and activities, besides being a man of practical experience.

During the last two years Supervisor Bridge has been chairman of the Road, Bridge and Franchise Committee, and has been active in promoting highway improvement. He is also chairman of the Hospital Committee, having direction of the County Infirmary with an average of three hundred and seventy-five inmates. Each Grand Jury called during Supervisor Bridge's term has commended the manner in which the Infirmary is conducted.

Supervisor Bridge has always favored all public improvements of a permanent character consistent with economy and a reasonable tax levy, and now has under way construction of a new model infirmary suitable to the needs of the county.

On the score of good service and practical experience Mr. Bridge deserves re-election. Faithful and competent public officials should not be displaced for light or trivial causes, and for sound business reasons the retention of Mr. Bridge in the Board of Supervisors is desirable, wherefore we urge his re-election as a matter of wisdom and justice dictated by the best interests of the community.

## EVIDENCE STRONG AGAINST BERNARD

Sperry Flour Company Cashier Is Heard on Felony Charge.

Damaging evidence was given against Bernard, former cashier of the Sperry Flour Company, who is charged with having embezzled \$34,000 from the company by Captain of Detectives Walter J. Peterson, who told of the confession of Bernard made to him by Bernard. The testimony given by Peterson was introduced only after a bitter question on the part of the attorney for Bernard had been overruled by Judge George Samuels.

The prosecution rested its case in the preliminary examination of Bernard this morning with the closing of the testimony offered by Captain Peterson on the witness stand.

HEARING CONTINUED.

On the motion of Senator Frank McSwain, who is associated with Judge Fletcher A. Cutler in the defense, the hearing was continued until Wednesday morning, August 17, when witnesses for the defense will be placed upon the stand. Prosecuting Attorney Earl Duvall is being assisted in the case by Attorney Reddell of the San Francisco firm of Reddell & Bell, who are employed as counsel by the Sperry Flour Company.

The attorneys clashed over the introduction of the testimony of Captain Peterson on the witness stand, as it was argued that this was in conflict with the constitutional rights of the defendant. The contention was overruled by Judge Samuels on the ground that the commission of crime was indicated by previous testimony, and therefore gave the right to the prosecution to bring in Peterson's evidence.

The candidacy of John J. Cassidy for the Republican nomination for state senator in the Twenty-second senatorial district has been endorsed by the West End Republican Club of the Portish assembly district.

What's the matter with it? demanded the advertising manager. "Well," explained the boss, "the man writes. I used to have three half pages on the top of my head, but since using one bottle I have only one."—Philadelphia Record.

# OAKLAND MERCHANTS CAN REDUCE EXPENSE

Stunning Figures Show Cost of Selling Can Be Materially Cut Some

The very best proof in the land that advertising decreases selling cost is contained in the situation of Hart, Schaffner & Marx, the famous clothing house, as compared with other clothing houses. Hart, Schaffner & Marx are authoritatively reported to be an annual volume of business of about \$25,000,000. They have been undoubtedly, more able clothing advertisers for the longest time than any other house.

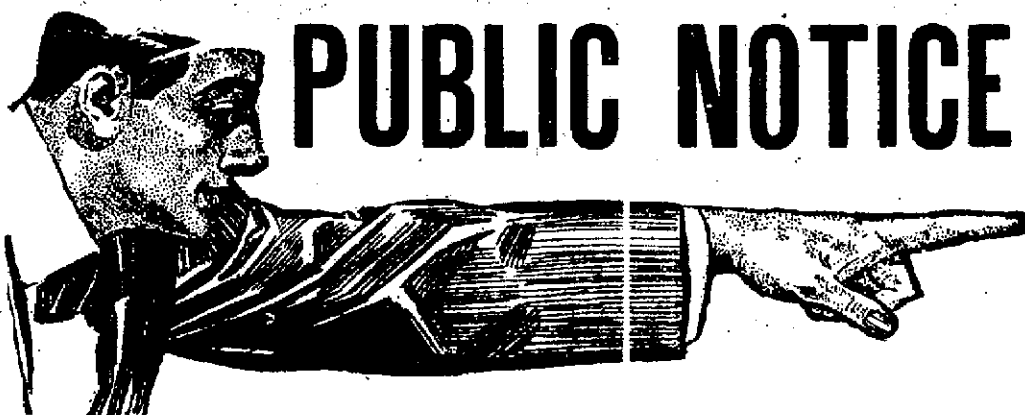

Good advertising has been their keynote all this time, and today their salesmen (who are on salary, not commissions) talk little else but advertising to dealers. It is related how one dealer who listened to a long and interesting dissertation of what the house of Hart, Schaffner & Marx had done, was doing and would do in the way of advertising, suddenly said, "Yes, that's fine, but what about the clothes?"

The salesman dismissed this subject with few words. "Ask those who know, or demand any tests you choose—the clothes are right. What concerns you most is how those clothes are advertised." And Hart, Schaffner & Marx are so beautifully entrenched in their position that they can demand that the dealer who holds the line of increase, sales every year or more, take away for some one who will. In magazine advertising alone this spring and last fall Hart, Schaffner & Marx spent \$55,000—about twice what its nearest competitor spent. This figure is not a guess, it is checked up from the magazines. \$125,000 would probably cover the total advertising expenditure, newspaper advertising and all.

Now let us measure up selling costs. For the sales department expense everything but advertising. I learn from inside sources that Hart, Schaffner & Marx spends only two and one-half to three per cent. See how this measures up beside other clothing houses:

House	Advertising	Selling
Hart, Schaffner & Marx	\$55,000	2 1/2 to 3 per cent
W. F. & Co.	40,000	4 per cent
Samuel W. Peck & Co.	20,000	5 per cent
Alfred Newman	24,000	7 per cent

As the selling cost named above is that of sales department alone, it will be well to examine how much advertising adds to it. An advertising appropriation of \$125,000 is but 0.83 per cent of a volume of business of fifteen million. Even supposing that the advertising is underestimated and the volume of business overestimated, the difference could not be larger than 1 per cent. The total Hart, Schaffner & Marx selling cost would then stand at 3 1/2 to 4 per cent—which is unquestionably tremendously low. There still remains a large gap between the low selling cost achieved by the two clothing firms and the higher cost necessary now to non-advertising firms.

## LONDON TALE TIE, DECLARES SAMUELS

Charges of "Get Even" Jack Part of Political Plot, Is Judge's Opinion.

Jack London has written another letter to Police Judge Samuels, whom he recently said he "would get" because of his decision in connection with his disreputable row with Tim Muldowney, keeper of The Tavern. It is the opinion of Judge Samuels that the letter is being written by political enemies in this particular affair.

The London letter reads as follows: "The London letter reads as follows: Police Judge George Samuels, Oakland. Dear Sir: For some time now my mail has been burdened with letters from persons in Oakland. These were letters of advice. One and all they informed me that if I looked up the records for the property at 362 Seventh street, Oakland, I should find something of interest. Now, 362 Seventh street is The Tavern, a tenebrous resort, of which Timothy Muldowney is proprietor and wherein, by the afore said Timothy Muldowney and his assistants, I was beaten up a short time ago. (You remember the case, for you yourself tried it in your court.) According to the records in the assessor's office of the county of Alameda, 362 Seventh street is assessed to George Samuels.

In the telephone directory of Oakland there is only one George Samuels, and that is Judge George Samuels. So I am writing to you to ask if you are the George Samuels who is assessed for Muldowney's tenebrous resort at 362 Seventh street.

If you are not the George Samuels in question, I apologize for entertaining even for a moment the idea that a judge of rectitude should own such a low place and derive revenue from it, and at the same time try a case between a non-resident like me and a revenue-paying, vice-swallowing tenant like Muldowney.

Well, was I was unprovokedly beaten up in Muldowney's resort. If Muldowney had been found guilty by the police court decision his license would have been annulled, and also would have been endangered the revenue of the owner of the place.

### WAS TRIAL JUDGE.

No judge of common sense and equity, being solely interested, should try such a case. You tried the case between Muldowney and me.

repeat: If you are not the George Samuels who owns Muldowney's tenebrous resort, I apologize for entertaining this supposition. But if you are the George Samuels who owns that resort of low repute, then what have you to say for yourself?

Very truly yours,  
JACK LONDON.

When asked about the London letter today Judge Samuels made this reply:

### HAS LEASED LAND.

"In answer to the statement of London I want to say that I purchased the land in question about four years ago. At that time it was a vacant lot and I leased it to E. J. Silva for a term of five years. Silva erected the building upon the land and I had nothing whatever to do with it. About a year ago I understood that Silva went into bankruptcy and that the lease on the land was taken by the trustee in bankruptcy as an asset and sold to the highest bidder. The trustee in bankruptcy has allowed the rent of the land to me and I have never had any dealings with any other person in regard to the same. At the time of the London case I had no intimation of any kind that the case was by Muldowney was on the land."

## EXPECT VAN LIEW TO RESIGN PLACE

President of the Chico Normal Holds Conference With Chairman of Board.

SAN FRANCISCO, Aug. 11.—That Dr. C. C. Van Liew, president of the State Normal School at Chico, who is at present in this city, came here for the purpose of conferring with Trustees Clifford Coggin in regard to drawing up his resignation is the belief of friends who have followed the case, and that the resignation will take place before the commencement of the full term, September 6, is their further belief. Yesterday he held a long conference with the chairman of the board of trustees.

Following his acquittal on a serious charge of misconduct toward one of his pupils, Mrs. Ada Clark, he at first stated that nothing in the way of outside pressure would force him to resign as head of the institution, but it is said that he now realizes the nature of the charges that were brought against him and that for the good of the school he will resign.

It is further stated by the friends of Van Liew that the letter will contain a recommendation of some of the principals in the controversy, and that what he believes was a political conspiracy against him will be scored.

Harry A. Clark, Who Has Laid \$10,000 on Single Race, in Jail.

Service Calls on War Department for Aid in Stopping Big Fire.

NEW YORK DETECTIVES ARE TAKING HIM EAST

Threw Authorities Off Track by Cutting Off Identification Mark.

Defective literature and photographs of the police department of New York City delivered to the county jail last night for safe-keeping until Sunday, when they will be returned to Harry A. Clark, who is wanted in the eastern metropolis for participating in the exact nature of which the officials are not in full accord.

Clark is a notorious race track player and when playing the horses frequently bet as high as \$10,000 on a race. According to stories told by the local sporting fraternity he made some heavy winnings in 1902 at the Danville track. Clark was released from jail here as a fugitive from New York days ago as he left the Oregon state prison at Salem, where he served a term of two years. He was turned over to the California authorities, who were on hand with extradition papers to take charge of him.

550,000 WINNING.

The plunger is reported to have won as high as \$50,000 at the races in a single day during the height of his career and when he finally incurred the wrath of the Oregon law he gave the authorities of that state a merry chase before he was captured. The police of Butte City had heard of him and on several occasions had been to his home in search of him. Clark had absconded with the precaution, however, to remove a prominent mole on his neck and when arrested produced \$7500 and offered to bet it against \$50 that he was not Clark.

Being thus thrown off their game the arresting officers looked for the mole in the nose. They released the prisoner and he went on to his home in the Oregon law he gave the authorities of that state a merry chase before he was captured. The police of Butte City had heard of him and on several occasions had been to his home in search of him. Clark had absconded with the precaution, however, to remove a prominent mole on his neck and when arrested produced \$7500 and offered to bet it against \$50 that he was not Clark.
